## What's Included in Product Uploads?

With the basic details you provide—such as description, name, pictures, and colours—we will craft and elaborate on your product listings in a professional manner to ensure they deliver messages that align with your target audience and optimise SEO. This service includes:

- Writing professional and well-aligned product descriptions.
- Image revamping: enhancing poor-quality images, cropping, and removing backgrounds to match your store's appearance.
- SEO optimisation for each product detail page.
- Synchronisation of content with your brand's offers and identity.
